

Circumference
130 - 175mm

1. Check sizing of the template by measuring the strap-length dimension using a ruler.
2. Trim template around dashed line.
3. Fold the two tabs in the direction indicated and interconnect the slots. *Fix with tape if required (optional).*
4. Test user fit by placing the template image side up on the wrist. Feed the strap through the loop. To ensure that the strap will fit it must sit within the hatched region.

HINT: when printing, select sizing options for A4 paper and select "Do Not Scale" or "Actual Size" - Do NOT choose "Scale to Fit"
